Inventory Sticker

This extension generates inventory stickers for thermo printers (we use Brother QL-720NW) from our Teedy instance. Teedy is an open source software document management system (DMS). Complete details can be found at [2. Etikettenkonzept](#) and [3. Druckerkonzept](#). This extension is tested in Linux (Ubuntu 20 LTS) and Windows 10.

Source code can be found in

https://gitea.fablabchemnitz.de/FabLab_Chemnitz/mightyscape-1.2/src/branch/master/extensions/fablabchemnitz

The required python module `brother_q1` will be installed by MightyScape requirements automatically. It might be required to add additional permissions for the user. See [3. Druckerkonzept](#).

Printing Marks Dotted

This extension is an older legacy version of "Extensions → Render → Layout → Printing Marks" with small difference for offering dotted crop marks
