

Filter By Length/Area

Paths with value smaller than the given threshold will be deleted. This extension might require to break up your object before.

Take some image

This is not a good example but shows the effect

Run the extension

Filter By Length/Area

Enable debug

Apply transformations (requires separate extension)

Schwellwert

Einheit mm ▼

Interval 10,000 - +

Enable filtering min.

Min. length or area 1,000 - +

Min. nodes/<interval> 2 - +

Enable filtering max.

Max. length or area 10000000,000 - +

Max. nodes/<interval> 99999 - +

Genauigkeit 3 - +

Tips

Applies to paths only! Rectangles and other elements are not supported. If your selection is empty, the whole document will be parsed. If you did not enable any filter, the actions are applied either to the whole selection or the complete document too.
