

Living Hinge (Fit To Rectangle)

This plugin only works für rectangles of the type "Object". So you may not convert the rectangle to a path before! See

https://wiki.lv11.org/Inkscape_Extension_to_Render_a_Living_Hinge.

Draw a rectangle object (do not convert to path!)

Living Hinge ×

Direction

Unit

cut length

gap length

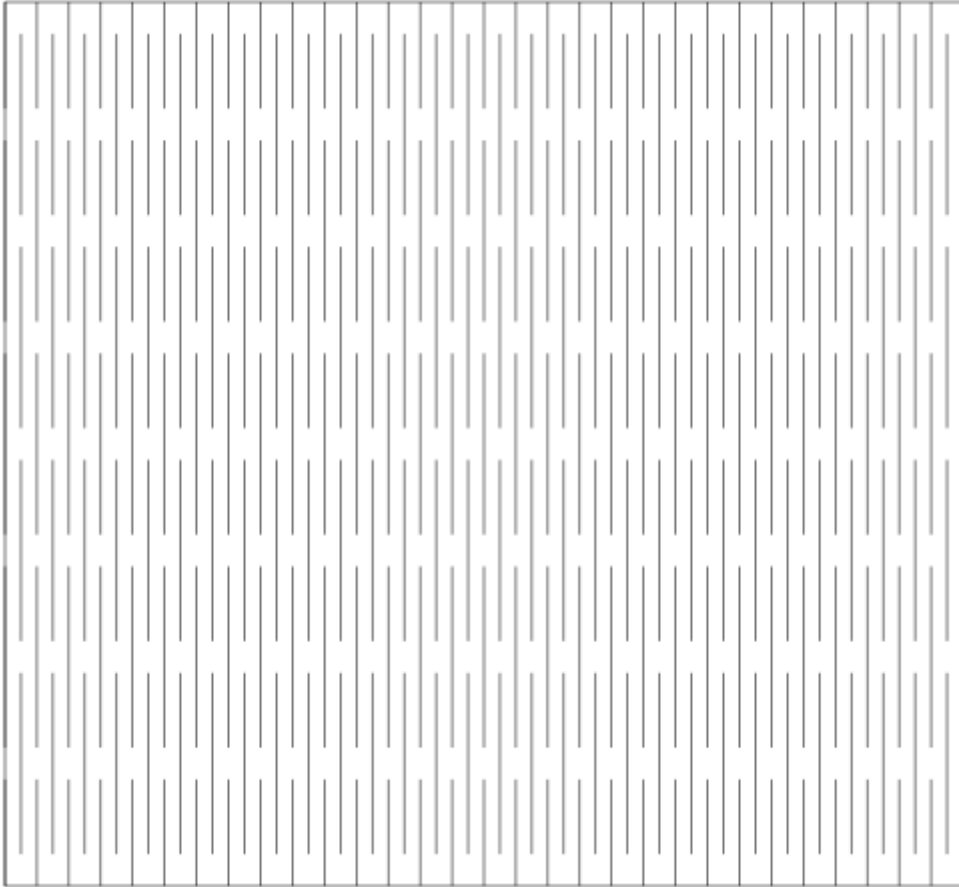

separation distance

This extension renders the lines to make the cuts for a living hinge. The cuts run in the chosen direction.

- direction: choose the direction of the cuts.
- cut length: the length of each cut.
- gap length: the separation between cut lines.
- separation distance: the separation distance between adjacent sets of cut lines.

The entered value for cut length will be adjusted so that an integer number of whole cut lines lies in the rectangle. The entered value for separation distance will be adjusted so that an integer number of cut lines lies in rectangle.
