

Purge Pointy Paths

This filter deletes paths which render as point only, like:

- `m 45.250809,91.692739` - this path contains onyl one command - a single point
- `m 45.250809,91.692739 z` - this path contains two commands, but only one coordinate. It's a single point, the path is closed by a Z command
- `m 45.250809,91.692739 l 45.250809,91.692739` - this path contains two commands, but the first and second coordinate are the same. It will render als point
- `m 45.250809,91.692739 l 45.250809,91.692739 z` - this path contains three commands, but the first and second coordinate are the same. It will render als point, the path is closed by a Z command
