

# Monitoring and alerting | Repetier Server integrated monitoring

Repetier Server offers a new quick status monitoring of the system since version 0.94.0

The screenshot displays a monitoring dashboard with a dark teal header containing navigation icons: Home, Files, Desktop, Mail, and a highlighted lightning bolt icon. The main content area lists system metrics and alerts:

- Alerts:** Two orange warning icons with exclamation marks. The first is labeled "Undervoltage: In past" with an external link icon. The second is labeled "CPU throttled: In past" with an external link icon.
- Temperature:** A thermometer icon followed by "CPU temperature: 53 °C".
- CPU Load:** A CPU chip icon followed by "CPU load: 2.79, 3.39, 2.64".
- RAM:** A RAM chip icon followed by "Free RAM: 661 MB".
- Storage:** A hard drive icon followed by "/ : Free 21GB".
- External Storage:** A hard drive icon followed by "/mnt/external\_usb32g : Free 2.6GB".
- Time:** A clock icon followed by "Date and time: Mon Jun 15 12:54:18 CEST 2020".
- Uptime:** A clock icon followed by "PC uptime: 1 day, 22:01". This row is highlighted with a grey background.

Version #1
